

ROG 12RK SURVIVAL SERIES FEATURES

SURVIVAL SERIES

As we developed the ROG line of Adventure Trailers, we paid close attention to how our campers were really using them. More and more owners were leaving the pavement behind and heading farther off-grid in search of bigger adventures. It became clear that our lineup needed to evolve with them—adding features that make off-grid camping easier, more capable, and a lot more fun.

Enter the **Survival Series**. Thoughtfully designed, it's not meant to be the finish line, but a starting point for those inspired to explore beyond the typical campground. The Survival Series includes everything found in the Adventure Series, plus the added upgrades listed to the right, giving you greater confidence and comfort when the road turns rough and the destinations get more remote.
